Website accessibility: what the Disability Discrimination Act means for your site

Published 27 September 2026. Read the full story, sources and any updates at digitaladvisors.com.au/journal/website-accessibility-dda-small-business/

- [ ] **Run the W3C Easy Checks on your home page and main enquiry page.** Note each failure, including image text alternatives, colour contrast and form labels.
- [ ] **Tab through your booking or quote form using only the keyboard.** Check you can see every field and button as it's highlighted, and that a sticky header or cookie banner doesn't hide it.
- [ ] **Check button and link sizes on your phone.** WCAG 2.2 Level AA asks for targets of at least 24 by 24 CSS pixels, with exceptions.
- [ ] **Add captions, transcripts or audio description to your videos.** These are among the W3C Easy Checks for audio and video.
- [ ] **Ask your web developer to test against WCAG 2.2 Level AA.** Ask for the failures in writing so you can prioritise fixes.
- [ ] **Put WCAG 2.2 Level AA in the brief for any new site or redesign.** Make it part of what you're paying for, not an extra later.

NOTES

General information only, not legal, tax or financial advice. Check the full story and its sources before acting.
